EPITA

GRADUATE SCHOOL OF COMPUTER SCIENCE

EPITA, HAILED BY THE PRESS AND RANKED AMONG THE TOP ENGINEERING SCHOOLS IN 2018

L'USINE NOUVELLE

EPITA RANKED AS THE LEADING COMPUTER ENGINEERING SCHOOL FULLY DEDICATED TO THE DIGITAL SECTOR!

Every year, the L'Usine Nouvelle magazine publishes its list of the best engineering schools in France. This year, EPITA showed significant progress as it took **12th place in the general ranking** from among 130 French engineering schools, behind the higher general engineering schools.

It also came in **first place in the category of computer engineering schools fully dedicated to the digital sector!**

INTERNATIONAL FOCUS

EPITA ranks **#1 in computer engineering schools according to international criteria.**

	International score	Students holding a degree from a foreign university (in %)	At least one semester on a foreign exchange program (in %)	At least one semester working as an intern in a firm (in %)	Double degrees abroad	1ST job abroad
EPITA	42,4	5,5	92,2	38	2,4	25
Centrale Nantes	42	18,8	38,3	48,6	23,6	27
ESAIP	36,9	4,5	79,1	55,8	2,3	9,6

L'ÉTUDIANT 2018 RANKING
EPITA IS STILL AT THE TOP!

Each year, L'Étudiant unveils a new list of the best engineering schools in France and asks high school students to draw up their own rankings, based on a selection of criteria that they consider important. In 2018, EPITA is once again ranked as **the leading digital engineering school according the six criteria.**

	Information technology industry	Information technology (services)	Salary after graduation	Graduates employed abroad	Proportion of scientific baccalaureate holders	Alumni on Linkedin	Total	
EPITA	5	5	4	4	5	5	28	
Télécom ParisTech	5	5	5	3	5	5	28	
IMT Atlantique (Télécom Bretagne)	5	5	4	3	5	5	27	

" EPITA provides students with the skills and tools they need to excel in their professional fields, while fostering the most fundamental scientific knowledge allowing them to become engineers with extensive expertise. Our concept of project-based learning, internship offers in prestigious companies, associative life, international openness and interactive and innovative spirit inspire and encourage students to achieve the highest possible level of excellence. "

Joël Courtois, EPITA managing director.

About EPITA.
Founded in 1984, EPITA is a bilingual graduate school of computer science.
EPITA welcomes a wide range of foreign students into its different programs: Master of Engineering, MSc in Computer Science, international Bachelor, as well as Summer School sessions and French language courses.

ABOUT IONIS EDUCATION GROUP

Created in 1980 by Marc Sellam, the IONIS Education Group is the first group of private, higher education in France. The 24 schools and entities* of the Group bring together nearly 27,000 students and 70,000 alumni in the fields of business, marke-ting, communication, management, finance, information technology, digital, aeros-pace, energy, transport, biotechnology and innovation. The self-defined mission of the IONIS Group is to bring forth new business intelligence today and tomorrow. In 2017, the IONIS Group is expanding its borders with the creation of interdisciplinary urban campuses in foreign metropolises (Barcelona, Berlin, Brussels and Geneva). Strong international scope, attachment to innovation, entrepreneurial spirit, and veritable "culture of adaptability and change", these are the main values taught to the future alumni of the IONIS Group - key actors in tomorrow's economy.
