CS

MASTER of Science in Computer Security

The Master of Science in Computer Science - specialization Computer Security program

allows students to master cybersecurity issues and to deal with cyber threats. It combines learning system (design to administration), networks (existing and new generations) and cybersecurity (organizational and technical).

- + Provides skills leading to Information System Security Manager employment
- + Ability to understand company risks and governance as well as identifying areas of progress

Program

Semester 1 (S1)	Semester 2 (S2)	Semester 3 (S3)	Semester 4 (S4)
Fundamental	Common Core	Specialization	Internship
30 ECTS	30 ECTS	30 ECTS	30 ECTS
12 Months			6 Months
On Campus			In a Company

Learning Objectives

The heart of this program is to train information and cybersecurity experts to protect vital systems and networks.

- ▶ Information Systems Security Officer
- ▶ Intrusion Testing Security Consultant
- ▶ Digital Forensics & Incident Response Expert
- ▶ Cyber Experts
- ▶ Infrastructure & Operations Manager
- ▶ Integrator, architect of cybersecurity solutions
- ▶ System Administrator

Average salary: **40K€ gross annually**

Internship salary: **1200-1500€ monthly**

Application

Requirements

- ▶ 4-year bachelor's degree or higher
- ▶ 3-year bachelor's degree with significant experience

Fees

- ▶ Tuition fees: 14 760 €
- ▶ Application fees: 60 €

Deadline

31st of July (September Intake)
15th of January (March Intake)

Procedure

APPLY ONLINE

www.epita.fr/en

1 Validation of the candidacy

2 Online interview

3 Admission results

Status of an application is communicated by email during each phase of the procedure.

Checklist

- ▶ Resume
- ▶ Passport
- ▶ Official university transcripts
- ▶ Certified copy of the bachelor's degree certificate
- ▶ 2 letters of recommendation
- ▶ TOEFL 80, TOEIC 800 or IELTS 6.0
- ▶ Motivation letter

Chady MORRA

Class of 2022
From Lebanon

In today's world, we are under constant threat of data breaches, ransomware, phishing and other emerging cyber threats. To face these sophisticated attackers, we need well-trained and professional cybersecurity individuals to protect our critical infrastructure and preserve our digital privacy.

This program is designed to make you a well-rounded cybersecurity professional. The courses are taught by professionals who are working in the industry, so you will be learning the latest and cutting-edge tools and techniques.

After graduation in 2022, I took on the Information Security Engineer role at Equativ which is a leader in the Advertising Technology industry. In this field I never stop learning from new challenges every day.

Program Outline
